

# Adding Additional Schedule C P4/5

02/17/2025 1:18 pm CST

Additional pages 4 and 5 have been added to accommodate any Schedule C transactions that exceed the available space on Form 5330. Previously, these transactions were included as attachments, but they must now be entered directly on the form, as the IRS's Modernized E-Filing (MeF) system only allows specific attachment types.

Once a Form 5330 is added to a plan, the **+Add p4/5** link will appear below it. Click this link to add more pages as needed.

To remove a page added by mistake, click the trashcan icon next to that page; this icon will only appear beside the most recently added page 4/5.
