

# Adding Additional Schedule C P4/5

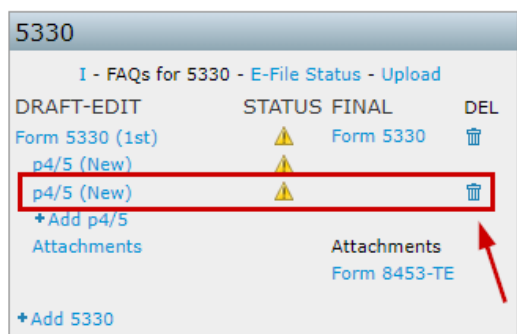

02/03/2025 7:55 pm CST

Additional pages 4 and 5 are available to capture any Schedule C transactions that don't fit within the spaces on Form 5330. Previously added as attachments, these entries must now be fully encompassed on the form, as the IRS's Modernized E-Filing system (MeF) only permits certain attachments.

Once a Form 5330 is added to a plan, the **+Add p4/5** link will appear below it. Click this link to add more pages as needed.

To remove a page added by mistake, click the trashcan icon next to that page; this icon will only appear beside the most recently added page 4/5.

**Note:** Deleting Form 5330 will also delete all associated page 4/5 entries and attachments for that form.
