

Q6c: The user navigated to an Employer (Company) that needed corrections on several of the 1095s, but the user is only able to edit some of them. How does the user edit all applicable forms?

Only those 1094s/1095s which were selected through the batch grid interface (see [Q6](#)) will be editable. Navigate back to the batch to select the 1094/1095, as applicable.
