

How Do I Log into the Portal?

06/03/2025 8:34 am CDT

You will need your username and password to log in. This must be provided to you by your plan administrator. The password will contain at least 8 character consisting of numbers, letters, and special characters.

A screenshot of a web browser window showing a login form titled "Enter Login Information". Inside the window, there is a grey button labeled "Please log in". Below this, there are two input fields: "Username:" and "Password:". Under the "Password:" field, there is a checkbox labeled "Save password". Below the checkbox is a grey button with a blue arrow icon and the text "Log In". At the bottom of the form, there is a blue hyperlink labeled "Forgot password".

If you check Save Password, your password will be stored in your browser for the next time you log in. The browser will not store this password securely, so this option is not recommended on public or shared computers.
