

How Do I Log into the Portal?

12/04/2024 10:23 am CST

You will need your username and password to log in. This must be provided to you by your plan administrator.

The screenshot shows a dialog box titled "Enter Login Information". At the top, there is a grey bar with the text "Please log in". Below this, there are two input fields: "Username:" followed by a text box, and "Password:" followed by a text box. Under the password field, there is a checkbox labeled "Save password". Below the checkbox is a "Log In" button with a blue arrow icon. At the bottom of the dialog, there is a blue hyperlink labeled "Forgot password".

If you check Save Password, your password will be stored in your browser for the next time you log in. The browser will not store this password securely, so this option is not recommended on public or shared computers.
