

# How Do I Find Help on the Portal?

12/04/2024 10:25 am CST

1. You can get to the Help page after logging in by clicking the down arrow next to the username button and clicking 'Help' in the popup menu.

2. In the help window, you can search for the answer to your question by typing it into the dropdown box at the top of the page. This will list all questions with the word or phrase you typed.

3. Click on the question you are looking for to be taken to that question in the list.
  4. You can also see a printable version of this list by clicking the 'Print' button in the upper right corner.
